HAFSAH MOHAMMED

Front-End Developer

+966 548 995 373 • hafsahdesuqy@gmail.com • Dammam, Saudi Arabia
LinkedIn: www.linkedin.com/in/hafsah-al-desouky • GitHub: github.com/Hafsah-Mohamad

PROFESSIONAL SUMMARY

Results-driven Front-End Developer with proven expertise in building responsive, high-performance web applications using React.js and Vue.js. Demonstrated ability to transform UI/UX designs into clean, maintainable code while optimizing website performance and ensuring cross-browser compatibility. Skilled in collaborating with cross-functional teams to deliver scalable, user-focused digital solutions that enhance usability and drive engagement.

KEY SKILLS

Technical Skills:
Front-End Frameworks: React.js, Vue.js • Programming Languages: JavaScript (ES6+), HTML5, CSS3 • CSS Frameworks & Tools: Bootstrap, Tailwind CSS, Flexbox, CSS Grid • Web Development: Responsive Web Design, SPA, PWA
API Integration: RESTful APIs, JSON, Axios, Fetch API • Version Control: Git, GitHub, GitLab
Development Practices: Component-Based Architecture, Code Refactoring, Performance Optimization, Debugging
Web Standards: Cross-Browser Compatibility, Web Accessibility (WCAG), DOM Manipulation, UI/UX Implementation

Software & Tools:
Visual Studio Code • Git & GitHub • Figma • Chrome DevTools • npm & Yarn • Webpack

Soft Skills:
Problem Solving • Team Collaboration • Time Management • Attention to Detail • Continuous Learning • Agile Collaboration

PROFESSIONAL EXPERIENCE

Front-End Web Developer

Kwaidi • August 2023 - January 2024 • Dammam, Saudi Arabia

- Developed comprehensive seller dashboard with system settings, subscription management, and brand configuration modules using Vue.js and Tailwind CSS
- Created app marketplace with filtering system, subscription comparison tables, and modal components for reviews and license management
- Designed interactive UI components including time zone selectors, star rating systems, and dynamic empty state messages
- Integrated billing system with multiple payment gateway displays (VISA, Apple Pay, Tabby) and receipt generation with QR codes
- Collaborated with cross-functional teams to implement ERP systems integration and database management
- Managed project execution with focus on meeting deadlines and maintaining code quality

Front-End Web Developer

Freelance / Projects • 2020 - Present • Dammam, Saudi Arabia

- Developed and maintained responsive web interfaces using HTML5, CSS3, and JavaScript, improving usability by up to 30%
- Implemented React.js components to create reusable, scalable UI elements, reducing development time and improving maintainability
- Integrated RESTful APIs and handled dynamic data rendering, ensuring smooth user interaction and accurate data display
- Optimized website performance by improving asset loading and code efficiency, resulting in faster page load times
- Ensured cross-browser compatibility and resolved UI bugs, enhancing visual consistency and functionality
- Collaborated with designers and back-end developers to translate business requirements into effective front-end solutions

SELECTED PROJECTS

Kwaidi - Multi-Vendor E-Commerce Platform

2023-2024 • Vue.js, JavaScript, Tailwind CSS, Component Architecture

- Developed comprehensive seller dashboard with system settings, subscription management, and brand configuration modules. Implemented real-time data editing and multi-language support for Arabic and English interfaces
- Created app marketplace with filtering system, subscription comparison tables, and modal components for reviews and license management. Built responsive admin panels for brand management and store plans
- Designed interactive UI components, billing system with payment gateways (VISA, Apple Pay, Tabby) and QR code receipts

BrandHub - Enterprise Multi-Brand Management System

2024 • Vue.js, JavaScript, Tailwind CSS

- Built comprehensive e-commerce dashboard with eight core modules for brand management. Implemented real-time editing and multi-brand portfolio tracking system

Omnifood - Meal Delivery Service

2023 • HTML5, CSS3, JavaScript, Responsive Design

• Developed responsive landing page for healthy meal delivery service with AI-powered meal selection. Implemented three-step ordering process and promotional signup forms with validation

Appie - App Landing Page

2023 • HTML5, CSS3, JavaScript, Responsive Design

• Created multi-section landing page with light/dark mode toggle and pricing tables. Integrated video content and designed step-by-step process visualization

Cinema Seat Booking System

2023 • HTML5, CSS3, JavaScript, DOM Manipulation, Local Storage

• Developed interactive movie seat booking system with visual seat selection. Implemented real-time availability tracking and dynamic pricing calculation

Currency Exchange Calculator

2023 • HTML5, CSS3, JavaScript, API Integration

• Built real-time currency converter using external API integration. Designed clean interface with instant calculation functionality and responsive layout

iPhone 13 Pro Max - Product Showcase

2023 • HTML5, CSS3, JavaScript

• Built interactive product page with dynamic color selection feature. Implemented real-time color switching that updates product display and background simultaneously

Product Card - E-commerce UI Component

2023 • HTML5, CSS3, JavaScript

• Developed modern product card interface with color selection, pricing display, and product details. Implemented clean design with smooth interactions for enhanced user experience
